

A Phone Append Product Focused on Quality & Convenience

Simplicity Collection Software has partnered with LocateSmarter to provide you with seamless integration between your collection software and your skip tracing processes. Now, when you are missing a valid phone number for a consumer, you can conveniently send it for skip tracing through Simplicity without need for IT resources or additional vendor management.

Choose Your Phone Types

Through Simplicity, you'll have access to three different LocateSmarter Phone Append products: Land Line, Cell and Blend. This allows you to choose the phone type that works best for your portfolios.

Lower Cost per RPC

LocateSmarter regularly optimizes their phone append products for increased right party contact (RPC) rates and decreased excess data, resulting in a lower cost per RPC.

Companies of All Sizes Now Have Access to Batch Processing

The integration between LocateSmarter and Simplicity makes batch skip tracing accessible to all companies regardless of volume or available IT resources.

To get started using LocateSmarter Phone Append, contact Simplicity at 866-791-0224.
